# How we approach Artificial Intelligence at Clarivate

At Clarivate, our mission is to advance the success of people and organizations through transformative intelligence and trusted partnership. We aim to build a lasting legacy by supporting the world's explorers, researchers and innovators to help people and our planet for years to come.

**Artificial intelligence (AI) helps us deliver on this mission.**

AI is already an integral part of our business. Our data offers valuable insights that customers would not be able to access without the help of AI models. The data we use is normalized, correlated and translated by AI to provide meaningful information.

The following principles show how we approach the use and development of AI at Clarivate, in trusted partnership with our customers and industry partners, empowering them to achieve great outcomes.

## Think forward with Clarivate AI

A monthly newsletter that will keep you informed on our latest AI news and product developments

RK Is the new Fourth Wing book out?

Yes. The second book in the Fourth Wing series, titled "Iron Flame", was published November 2023. It continues the captivating saga of dragon riders, magic, and intrigue. Dive into the world of imperfectly perfect characters and epic adventures as you follow their growth and relationships. Happy reading! 📚🌟

Iron Flame | Yarros, Rebecca

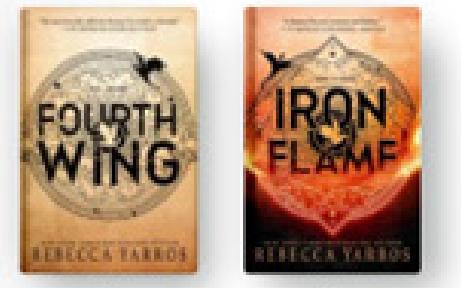

After surviving her first year at Basgith War College, dragon rider Violet Sorregail discovers that the real danger is just beginning.

RK Can you help me with my science project about space?

Space is an exciting subject with many possible science projects. One idea is to do a report on the solar system. Here are some resources that might help learn about space and the solar system.

The Mysteries of the Universe

I Am the Solar System

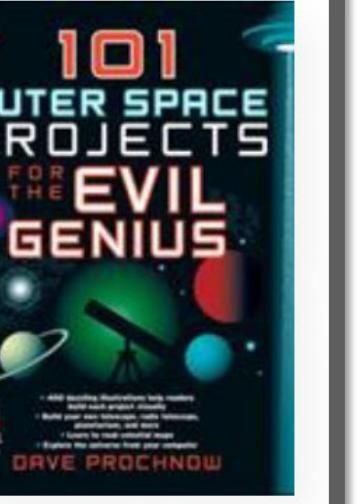

Big Ideas for Little Minds: The Solar System

Space Activity Lab

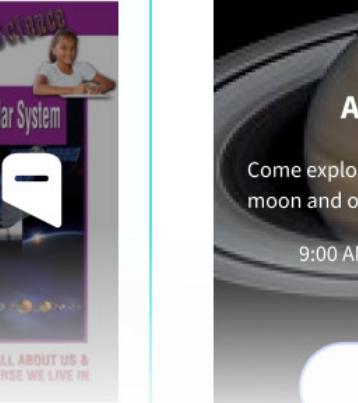

101 Outer Space Project For The Evil Genius

Explore videos about the Solar System

March 31

Astronomy Night

Come explore the night sky with us! See the moon and other planets. Weather permitting.
